

Electric multiple unit Plan V, NS

63139 | **NS**

railway company: NS

0,00€

Electric multiple unit Plan V of the Dutch State Railways.

Update!

- Model with PluX22 interface and PluX22 sound decoder available for the first time
- Model with authentic and delicately designed pantographs
- Elaborately designed model with many separately applied plug-in parts
- The model is equipped with a sound and function decoder

The two-part Dutch Electric Multiple Unit Plan V that was better known in the Netherlands as "Mat '64" or under the nickname Apekop (Monkey Head) - became one of the standard local trains of the Dutch State Railways in the mid-1960s. With a total of 246 units, it was the NS's most-built multiple unit at the time. From the V3 series on, the new colour scheme of the Dutch State Railways was also applied to the Plan V 415 units: bright yellow with grey details on the front and three blue, diagonal stripes on each side of the unit. The multiple units were used on almost all electrified railway lines in the Netherlands until they were finally scrapped.

General data

Coupling	In-house produced coupling
Minimum radius	419 mm
Flywheel	yes
Number of driven axles	2
Number of axles with traction tyres	1
Article number	63139
EAN	9005033631390
Interior fitting	Model with interior furnishing
Original (country)	Netherlands
Scale	H0
Epoch	IV
Railway Company	NS

Electrical

Motor	5-pole motor
Head light	3 headlight, dependent on the direction of travel/2 tail lights, dependent on the direction of travel
LED head light	yes
Decoder-Type	MX630P16
Sound	yes
Buffer capacitor	yes
Interior lighting	Yes, LED, Digital switchable
Control	DC Digital
Interface	Electrical interface for traction units PluX22
Digital decoder	PluX22, Function decoder

Measurements

Length over buffer

599 mm
