

Electric locomotive 186 909-4 “Nightpiercer”, SBB/RAIpin

7500035 | SBB

railway company: SBB

0,00€

Electric locomotive 186 909 of the leasing company Akiem, rented out to SBB Cargo International.

- Baptised with the name “Monte Olimpino”
- Side walls feature different designs
- Version in special night-time design
- Service in cross-border freight transport
- With separately attached plug-in parts, in part using etching technology
- Design with snow plough on the chassis
- Switchable headlight/tail light with DIP switch
- In cooperation with Railcolor Design

Based on the TRAXX MS2e platform by Bombardier, this locomotive can be produced in many versions and is thus ideal for the interoperability requirements on railway freight transport in Central and Western Europe. It can be operated on all European electricity networks. Since the first of January, 2021, the RAlpin-"Rollende Autobahn" (Rolling Highway) Freiburg im Breisgau to Novara Boschetto has been hauled using class 186 locomotives. The 186 909 owned by the SBB is the only locomotive to bear the striking "Nightpiercer" design which sets it apart from the other engines.

General data

Coupling	NEM shaft 362 with close coupling mechanism
Minimum radius	358 mm
Flywheel	yes
Number of driven axles	4
Number of axles with traction tyres	1
Article number	7500035
EAN	9005033063979
Scale	H0
Epoch	VI
Railway Company	SBB

Electrical

Head light	3 headlight, dependent on the direction of travel/2 tail lights, dependent on the direction of travel
LED head light	yes
Additional light function	yes
Control	DC Analog
Interface	Electrical interface for traction units PluX22

Measurements

Length over buffer	217 mm
