railway company: DB

219,90€

Electric locomotive 112 172 of the Deutsche Bundesbahn.

- In orient red livery with "Latz"

Since 1992, the improved Class 112.1 has been procured jointly by DB and DR. The most obvious external change to Class 112.0 is the consolidation of the large head and tail lights into smaller combined halogen lamps. These express locomotives have an output of 4,000 kW and a top speed of 160 km/h and are used throughout Germany to haul Intercity, regional express and special passenger trains.

General data

Coupling	NEM shaft 355 with close coupling mechanism
Minimum radius	192 mm
Flywheel	True mm
Traction tyres	2
Number of driven axles	4
EAN	4005575263368
Scale	N
Epoch	IV-V
Railway Company	DB

Electrical

Motor	3 pole motor
Head light	3 headlight, dependent on the direction of travel/2 tail lights, dependent on the direction of travel
LED head light	yes
Control	DC Analog
Interface	Electrical interface for traction units according to NEM 651 standards with plug-in fixture

Measurements

Length over buffer	104 mm
