railway company: NS

489,90€

Electric multiple unit Plan V 432 of the Dutch State Railways.

- Version with dark grey chassis
- Authentic filigree pantographs
- Rich detailing on the model with many separately applied plug-in parts
- In digital operation with switchable interior lighting
- The model is equipped with a sound and a function decoder

The two-part Dutch Electric Multiple Unit Plan V that was better known in the Netherlands as "Mat '64" or under the nickname Apekop (Monkey Head), became one of the standard local trains of the Dutch State Railways in the mid-1960s. With 246 units, it was the NS's most-built multiple unit at the time.

Plan V1 and V2 were delivered in a green colour scheme with sand-yellow decorative stripes. The Plan V of the 3rd construction series was painted yellow from the factory in 1968. The multiple units delivered earlier were then also repainted yellow between 1969 and 1973. They operated on nearly all electrified railway lines in the Netherlands until their withdrawal from service.

General data

Coupling	In-house produced coupling
Minimum radius	419 mm
Flywheel	yes
Number of driven axles	2
Number of axles with traction tyres	1
Article number	7720015
EAN	9005033073282
Interior fitting	Model with interior furnishing
Scale	H0
Epoch	IV
Railway Company	NS

Electrical

Motor	5-pole motor
Head light	3 headlight, dependent on the direction of travel/2 tail lights, dependent on the direction of travel
LED head light	yes
Sound	yes
Interior lighting	Yes, LED, Digital switchable
Control	AC
Interface	Electrical interface for traction units PluX22
Digital decoder	PluX22, Function decoder

Measurements

Length over buffer

599 mm
